

**Thomas Jefferson Powerpoint Bullets for 6/24/2010**  
**Operational Period 6/23/2010 Sampling Period**

- Five stations, TJ62 – TJ66, were sampled during the operational period.
- All stations were sampled for: TPH, VOAs, and oil dispersion (CTD fluoremetry and dissolved oxygen).
- No samples were collected for bioassay using the Rototox test.
- Possible oil dispersion found at 12 meters by Station TJ65.
